

Resin Art Fact Sheet

Resin Mixing

All our resin is a 1:1 mixing ratio.
Equal parts A & B

Your measure needs to be exactly the same. Mix for a solid 2 minutes.

Collective Obsessions resin - 30min working time
Health of Mind Art resin - 1 hour working time.

Powders & Pastes

You can use a mix of mica powders & or pastes.

When using paste, use tiny amounts as pastes are a very strong pigment colour. No more than 3% ratio of paste to resin. Less is more.

Curing Time

Collective Obsessions resin is a 3 day curing process.
Health of Mind Art resin is 7 days curing time. Ensure your pieces are in a dust free environment. Plastic tubs over your pieces are a good and cheap option.

Sanding/Finishing

We recommend sanding the back of the boards to remove the resin using an electrical sander. We use a 40grit then a 120grit sanding pad for boards. We use a stanley knife to remove resin off the back of coasters

Tools & Equipment

- Heat Gun
- Gloves
- Mixing cups & sticks
- Plastic to protect your table
- Straws
- Apron

Product Suppliers

- Collective Obsessions
- Health of Mind Art
- Kitchen Warehouse - Heat Gun
- Kmart & Target - boards
- James Turner Woodwork - larger wood pieces.
